Research Collaboration Letter

I am pleased to collaborate with Dr. Amar Katkar from Department of Physics, Lonavala Education society, Dr. B. N. Purandare Arts and Smt. S. G. Gupta Commerce and Science College, Valvan, Lonavla, Pune-410403, India.

This collaboration is highly towards enrichment of our ongoing research activity especially in the field of nanoscience and nanotechnology for various applications. We have already designed several research themes regarding nanoelectronics, nanomagnetism and gas sensing nanomaterials. Dr. Amar Katkar has vast experience of synthesis and characterization of nanomaterials and their electrical, optical and magnetic properties studies. Here at nanoscience centre, we have established state of art facilities under 100cr. grant of the UGC.

Since we are performing collaborative research projects, we are developing many laboratory activities together. In near future, we believe that we shall produce excellent output in the form of highly reputed international publications, government and industrial funded projects and patents

I wish grand success through this collaboration of research, student exchange and many more activities.

Sincerely yours,

Thanking you

Dr. Pravin Walke
